Teaching Assistant to Prof. Mario Bunge in logic and philosophy of science courses. Department of Philosophy, University of Buenos Aires. March 1959-March 1962.

Areas of Specialization:

Social Psychology – Social Inequality, Gender and Ethnicity in Social Interaction, Small Group Processes

Theory Construction and Theory Testing – Logical Analysis and Inference in Social Science Research

Experimental Research Methods – Design and Techniques

Research Interests:

(1) Social psychology of ability evaluation (interpersonal processes involving expectations, evaluations, and performances), in particular:

- (i) Status, influence, and rewards in task groups,
- (ii) Group prejudices and stereotypes (especially those based on gender, ethnicity, and native-born/immigrant),
- (iii) Standards, social comparisons, and the assignment of task competence, and
- (iv) Actors' and observers' reactions (cognitive and affective) to success and failure.

Development of formal theoretical models for these processes, and experimental tests in small group contexts. Applications to work settings: hiring and promotion decisions; performance evaluation; salary allocations.

(2) Theoretical and methodological issues in cross-cultural experimental social psychology.

### Academic Awards and Distinctions:

2014: The Department of Sociology at the University of British Columbia established the Martha Foschi Award for Excellence in Research and Teaching, to be conferred bi-annually. I was chosen to be the first recipient of this award (October 2014).
